The goal of this trip is to help students grow in love for people of various cultures and circumstances, to live out that love in tangible ways, and to grow in love for God and how he is at work in our world. Students should be able to sensitively engage with a broad, at-risk demographic, should be able to emotionally and physically handle full days immersed in a different culture as they engage people with difficult circumstances, and should have a willingness to do physical work in addition to interpersonal ministry.
